

Usage and application scope

SLK1 series decoupling element is applied in the low voltage distribution system, which is used for SPD's decoupling. When used in an internet, the circuit length of two protectors is less than 5m, the decoupling element should be connected to make balance.

SLK1-35

parameters

type	SLK1-35	SLK1-63
rated voltage	380V~	380V~
rated frequency	50Hz	50Hz
current	35A	63A
inductance	15μH ± 20%	15μH ± 20%

Electric principal

Outline and installation size
